Professional Experience

Mālama 'Āina Education Specialist, August 2019 – present

Mālama Learning Center, Honolulu, HI

- Help coordinate and lead classroom and field site visits
- Coordinate an 'Āina- and Place-Based Teacher Consortium with teachers from Leeward O'ahu
- Outreach for our various programs and on conservation issues such as invasive species awareness
- Coordinate Social Media posts, making sure there is appropriate content posted everyday

Graduate Research Assistant in the CTAHR Gene-ius Program, August 2018- November 2019

University of Hawai'i at Mānoa, Honolulu HI

- Teach elementary through intermediate students about the importance of Biology in the environment
- Help edit and create new science curriculum for our "Gene-ius Program"
- Plan large events for the CTAHR department such as their annual Agriculture and Environmental Awareness Day and their AgDiscovery Summer Program

Graduate Research Assistant under Dr. Mehana Vaughan, January 2018- May 2018

University of Hawai'i at Mānoa, Honolulu, HI

- Assist Dr. Vaughan with various logistics such as postings for our class, preparing the course, and reaching out to community members to be guest speakers when appropriate
- Helped coordinate class field trip to Kaua'i for a week

Biology Teacher, August 2016- May 2017

Kapolei High School, Kapolei, HI

- Taught sophomores at Kapolei High School the required High School Biology Course. The goal of this Biology course was to cover all necessary Biology content while incorporating as much environmental aspects into the curriculum as possible.

Kupu E2U (Environmental Education to You) Leader, August 2015- August 2016

Kupu & Mālama Learning Center, Honolulu, HI

- Provide Environmental Education lessons at Kapolei High School and with other Leeward schools – ranging from elementary to high School
- Care for the school's Native Hawaiian Plant Nursery
- Run the Go Green Club at Kapolei High School- planning field trips, running meetings and providing students with community service opportunities
